

From: Ronald Gillam, Ph.D.
Chair, Institutional Review Board

Nicole Vouvalis, J.D.
Director of Human Research Protections

To: David Rosenberg

Date: 2024-03-11

Protocol #: 14064

Title: Improving a Collaborative Model for Water Banking in Cache Valley, UT.

Your proposal has been reviewed by the Institutional Review Board and is approved under Exempt procedure(s) Exemption 2 (based on the Department of Health and Human Services (DHHS) regulations for the protection of human research subjects, 45 CFR Part 46, as amended to include provisions of the Federal Policy for the Protection of Human Subjects, January 21, 2019):

Research that only includes educational tests, survey procedures, interview procedures, or observation (including recording) if disclosure of the data outside the research would not reasonably place the subjects at risk of liability or damage.

This approval applies only to the proposal currently on file for the period of approval specified in the protocol. The expiration date matches your project completion date set in the Procedures section of your protocol. It is eligible for up to five years of exemption, at which point, it will be closed and a new exemption will need to be requested.

Any change affecting human subjects, including extension of the expiration date, must be approved by the IRB **prior** to implementation by submitting an Amendment request. Injuries or any unanticipated problems involving risk to subjects or to others must be reported immediately to the Chair of the Institutional Review Board. If Non-USU Personnel will complete work on this project, they may not begin until an External Researcher Agreement or Reliance Agreement has been fully executed by USU and the appropriate Non-USU entity, regardless of the protocol approval status here at USU.

Prior to involving human subjects, properly executed informed consent must be obtained from each subject or from an authorized representative, and documentation of informed consent must be kept on file for at least three years after the project ends. Each subject must be furnished with a copy of the informed consent document for their personal records.

Upon receipt of this memo, you may begin your research. If you have questions, please call the IRB office at (435) 797-1821 or email to irb@usu.edu. The IRB wishes you success with your research.
